UN HIGH-LEVEL MEETING ON TB
KEY TARGETS & COMMITMENTS
FOR 2022
UNHLM ON TB **KEY TARGETS**

**FOR 2022**

*WE, HEADS OF STATE AND GOVERNMENT AND REPRESENTATIVES OF STATES AND GOVERNMENTS ASSEMBLED AT THE UNITED NATIONS IN NEW YORK ON 26 SEPTEMBER 2018*:

1. **COMMIT TO PROVIDE DIAGNOSIS AND TREATMENT**
   With the aim of successfully treating 40 million people with tuberculosis by 2022.

2. **COMMIT TO PROVIDE DIAGNOSIS AND TREATMENT**
   With the aim of successfully treating 3.5 million children with tuberculosis by 2022.

3. **COMMIT TO PROVIDE DIAGNOSIS AND TREATMENT**
   With the aim of successfully treating 1.5 million people with drug-resistant tuberculosis, including 115,000 children with drug-resistant tuberculosis, by 2022.

4. **COMMIT TO PREVENT TUBERCULOSIS FOR THOSE MOST AT RISK OF FALLING ILL**
   So that at least 30 million people, including 4 million children under five years of age, 20 million other household contacts of people affected by tuberculosis, and 6 million people living with HIV, receive preventive treatment by 2022.

5. **COMMIT TO MOBILIZE SUFFICIENT AND SUSTAINABLE FINANCING**
   For universal access to quality prevention, diagnosis, treatment and care of tuberculosis, from all sources, with the aim of increasing overall global investments for ending tuberculosis reaching at least US$13 billion a year by 2022.

6. **COMMIT TO MOBILIZE SUFFICIENT AND SUSTAINABLE FINANCING FOR R&D**
   With the aim of increasing overall global investments to US$2 billion, in order to close the estimated US$1.3 billion gap in funding annually for tuberculosis research, ensuring all countries contribute appropriately to research and development.

7. **PROMOTE AND SUPPORT AN END TO STIGMA AND ALL FORMS OF DISCRIMINATION**, including by removing discriminatory laws, policies and programmes against people with tuberculosis, and through the protection and promotion of human rights and dignity.

8. **COMMIT TO DELIVERING, AS SOON AS POSSIBLE, NEW, SAFE, EFFECTIVE, EQUITABLE, AFFORDABLE, AVAILABLE VACCINES, POINT-OF-CARE AND CHILD-FRIENDLY DIAGNOSTICS, DRUG SUSCEPTIBILITY TESTS AND SAFER AND MORE EFFECTIVE DRUGS AND SHORTER TREATMENT REGIMENS FOR ADULTS, ADOLESCENTS AND CHILDREN FOR ALL FORMS OF TUBERCULOSIS AND INFECTION**, as well as innovation to strengthen health systems such as information and communication tools and delivery systems for new and existing technologies, to enable integrated people-centred prevention, diagnosis, treatment and care of tuberculosis.

10. **FURTHER REQUEST THE SECRETARY GENERAL, WITH THE SUPPORT OF THE WORLD HEALTH ORGANIZATION, TO PROVIDE A PROGRESS REPORT IN 2020 on global and national progress, across sectors, in accelerating efforts to achieve agreed tuberculosis goals, which will serve to inform preparations for a comprehensive review by Heads of State and Government at a high-level meeting in 2023.**
REACH ALL PEOPLE BY CLOSING THE GAPS ON TB DIAGNOSIS, TREATMENT AND PREVENTION

P17: Commit to closing the gaps in diagnosis and treatment with the aim of successfully treating 40 million people with tuberculosis from 2018 to 2022, including 3.5 million children, and 1.5 million people with drug-resistant tuberculosis, especially for those who are vulnerable or in vulnerable situations, such as women and children, indigenous peoples, health-care workers, migrants, refugees, internally displaced people, people living in situations of complex emergencies, prisoners, people living with HIV, people who use drugs, in particular those who inject drugs, miners and others exposed to silica, the urban and rural poor, underserved populations, undernourished people, individuals who face food insecurity, ethnic minorities and people and communities at risk of exposure to bovine tuberculosis, people living with diabetes, people with mental and physical disabilities, people with alcohol use disorders, and people who use tobacco, recognizing the higher prevalence of tuberculosis among men.

P18: Recognize the various sociocultural barriers to tuberculosis prevention, diagnosis and treatment services, especially for those who are vulnerable or in vulnerable situations, and the need to develop integrated, people-centred, community-based and gender and ageresponsive health services based on human rights.

P19: Commit to promoting access to affordable medicines, including in fundamental care, for scaling-up affordable tuberculosis treatment, including the treatment of multidrug-resistant and extensively drug-resistant tuberculosis, reaffirming the World Trade Organization Agreement on Trade-Related Aspects of Intellectual Property Rights (TRIPS Agreement)4, as amended, and also reaffirming the 2010 World Trade Organization Declaration on the TRIPS Agreement and Public Health.

P20: Commit to enacting measures to prevent tuberculosis transmission in workplaces, schools, transportation systems, correction systems and other congregate settings.

P21: Commit to developing community-based health services through approaches that protect and promote equity, ethics, gender equality and human rights, and to addressing tuberculosis.

P22: Commit to related improvements in policies and systems on each country’s path towards achieving and sustaining universal health coverage, such that all people with tuberculosis or at risk of developing tuberculosis receive the quality, accessible and affordable prevention, diagnosis, treatment and care services they need without suffering financial hardship, with stewardship of antimicrobials and prevention and infection control, within public and community, including faith-based organizations, and private sector services.

P23: Commit to promoting and supporting an end to stigma and all forms of discrimination, including by removing discriminatory laws, policies and programmes against people with tuberculosis.

P24: Commit to providing special attention to the poor, those who are vulnerable, including infants, young children and adolescents, as well as elderly people and communities especially affected by tuberculosis, in accordance with the principle of social inclusion, especially through ensuring strong and meaningful engagement of civil society and affected communities in the planning, implementation, monitoring and evaluation of the tuberculosis response.

ACCELERATE DEVELOPMENT OF ESSENTIAL NEW TOOLS TO END TB

P25: Commit to advancing research for basic science, public health research and the development of innovative products and approaches, including towards delivering, as soon as possible, new, safe, effective, equitable, affordable, available vaccines, point-of-care and child-friendly diagnostics, drug susceptibility tests and safer and more effective drugs and shorter treatment regimens for adults, adolescents and children for all forms of tuberculosis and inhaled tuberculosis.

P26: Commit to creating an environment conducive to research and development of new diagnostics, treatment and care of tuberculosis, from all sources, with the aim of increasing overall global investments for ending tuberculosis and reaching at least 13 billion United States dollars a year by 2022.

P27: Commit to mobilize sufficient and sustainable financing for universal access to quality diagnostic, treatment and care of tuberculosis, from all sources, and to increase the volume of sales, to facilitate equitable and affordable access to new tools and other results to be gained through research and development.

INVEST THE FUNDS NECESSARY TO END TB

P28: Commit to ensuring that all high-burden countries, so that at least 30 million people, including 4 million children under 5 years of age, 20 million other household contacts of people affected by tuberculosis, and 6 million people living with HIV receive preventive treatment by 2022.

TRANSFORM THE TB RESPONSE TO BE EQUITABLE, RIGHTS-BASED AND PEOPLE-CENTERED

P29: Affirm that all these people [affected by TB] require integrated, people-centred, prevention, diagnosis, treatment, care and support services of the highest quality, that are socially appropriate, notably through the involvement of communities and civil society and in a non-discriminatory manner, high-risk groups and other people who are vulnerable or in vulnerable situations, such as women and children, indigenous peoples, health-care workers, migrants, refugees, internally displaced people, people living in situations of complex emergencies, prisoners, people living with HIV, people who use drugs, in particular those who inject drugs, miners and others exposed to silica, the urban and rural poor, underserved populations, undernourished people, individuals who face food insecurity, ethnic minorities and people and communities at risk of exposure to bovine tuberculosis, people living with diabetes, people with mental and physical disabilities, people with alcohol use disorders, and people who use tobacco, recognizing the higher prevalence of tuberculosis among men.

P30: Recognize the various sociocultural barriers to tuberculosis prevention, diagnosis and treatment services, especially for those who are vulnerable or in vulnerable situations, and the need to develop integrated, people-centred, community-based and gender and age-responsive health services based on human rights.

P31: Commit to promoting access to affordable medicines, including in fundamental care, for scaling-up affordable tuberculosis treatment, including the treatment of multidrug-resistant and extensively drug-resistant tuberculosis, reaffirming the World Trade Organization Agreement on Trade-Related Aspects of Intellectual Property Rights (TRIPS Agreement)4, as amended, and also reaffirming the 2010 World Trade Organization Declaration on the TRIPS Agreement and Public Health.

P32: Commit to enacting measures to prevent tuberculosis transmission in workplaces, schools, transportation systems, correction systems and other congregate settings.

P33: Commit to developing community-based health services through approaches that protect and promote equity, ethics, gender equality and human rights, and to addressing tuberculosis.

P34: Commit to related improvements in policies and systems on each country’s path towards achieving and sustaining universal health coverage, such that all people with tuberculosis or at risk of developing tuberculosis receive the quality, accessible and affordable prevention, diagnosis, treatment and care services they need without suffering financial hardship, with stewardship of antimicrobials and prevention and infection control, within public and community, including faith-based organizations, and private sector services.

P35: Commit to promoting and supporting an end to stigma and all forms of discrimination, including by removing discriminatory laws, policies and programmes against people with tuberculosis.

P36: Commit to providing special attention to the poor, those who are vulnerable, including infants, young children and adolescents, as well as elderly people and communities especially affected by tuberculosis, in accordance with the principle of social inclusion, especially through ensuring strong and meaningful engagement of civil society and affected communities in the planning, implementation, monitoring and evaluation of the tuberculosis response.

P37: Commit to close the estimated 1.3 billion dollar gap to 2 billion dollars, in order to close increasing overall global investments for ending tuberculosis and reaching at least 13 billion United States dollars a year by 2022.

P38: Request the Director General of the WHO to continue to develop the multimedia accountability framework in line with World Health Assembly resolution 71.3 and ensure its timely implementation no later than 2019.

P39: Also request the Secretary-General, with the support of the WHO, to provide an annual report in 2020 on global and national progress, across sectors… which will serve to inform preparations for new global tuberculosis research, ensuring that all countries contribute appropriately to research and development.

REPORTING AND REVIEW INCLUDING REGULAR UN ACCOUNTABLE GLOBAL LEADERSHIP

P40: Commit to develop or strengthen, as appropriate, national tuberculosis strategic plans to include all necessary measures to deliver the commitments in the present political declaration, including through national multisectoral mechanisms to monitor and review progress achieved towards ending the tuberculosis epidemic, with high-level leadership preferably under the direction of the Head of State or Government, and with the active involvement of civil society and affected communities, as well as parliamentarians, local governments, academia, private sector and other stakeholders within and beyond the health sector.

P41: Request the Secretary-General of the WHO, in addition to report on the implementation and progress of the targets and indicators of the Strategic Plan for Tuberculosis, to present a comprehensive report to the World Health Assembly, for consideration and any necessary action, at least once every two years.

P42: Commit to developing or strengthening a multisectoral accountability framework that will serve to inform preparations for new global tuberculosis research, ensuring that all countries contribute appropriately to research and development.

END TB

In addition to the ten headline targets, these are some of the key commitments in the Political Declaration, grouped according to the Key Asks ([https://bit.ly/24uKcY]) proposed by the TB community. The full Declaration can be viewed here: [https://bit.ly/2OypmPa]
On 26 September 2018 at the UN General Assembly in New York, Member States held the first high-level meeting on TB, the world’s deadliest infectious disease. The meeting resulted in a political declaration endorsed by Heads of State and Government outlining the key commitments that must be met for the world to end the TB epidemic by 2030, as called for in the UN Sustainable Development Goals. In 2023 UN Member States will convene a follow-up high-level meeting for a comprehensive review of their progress.
It’s Time
to play my part
to achieve the targets in the UN Political Declaration on TB by 2022.
